

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

☒ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Personal comments.)

Commissioner Jane Henney
Docket No. 00P-1211\CP1
FDA Dockets Management Branch
(HFA-305)
5630 Fishers Lane, Room 1061
Rockville MD 20852

If I or anyone else get sick or die I consider it negligence ^{murder} and all who wouldn't inform (or at least try to inform people) responsible.
